Look at the title on page 10. What do you think the text is about?

This text is an informational text. Informational texts tell us about our world.
All animals can breathe and move, but they’re different in many amazing ways. Here we look at how they are the same and how they are different. This helps us put them into groups.

**Birds**

All birds have two legs, two wings, and feathers, and most birds can fly. The wings and feathers help them fly and the feathers help keep them warm. Birds lay eggs with hard shells. They keep the baby birds inside safe from animals that want to eat them.

**Fish**

Fish have gills to help them breathe in water. Scales all over their bodies help keep them safe from dangerous fish that want to bite them. They don’t have legs, but their fins and tails help them swim. Fish lay their eggs in water, and their eggs are soft.

How are fish different from birds?
Amphibians are very interesting because they can live on land and in water. Amphibians need to have wet skin, so they live in wet places. They lay their soft eggs in water. They have gills when they’re young and the gills help them breathe in water. Most amphibians, like frogs, have legs that help them walk and jump on land.

How are amphibians the same as fish?

Some mammals live on land and some live in water. Whales are water mammals, and cats, rabbits, and lions are land mammals. Hair or fur covers most land mammals’ bodies and this helps keep them warm. People are mammals too! Mammals don’t lay eggs. Their babies drink milk from their mothers.

How are mammals different from amphibians?
Comprehension

1. The bird group
2. The fish group
3. The amphibian group
4. The mammal group

Ask and answer the question.

What’s your favorite part?
Frogs have wet skin. That’s cool!

How are birds and fish the same? How are they different?

Leo and Lily’s Adventure
In this story we read about the adventure of a cat, Leo, and a bird, Lily.
This story is an adventure story. Adventure stories are usually exciting because a lot of things happen.
Leo and Lily live in a big garden near a forest. Lily is red and yellow. She’s friendly, but she is usually very nervous. Lily flies from tree to tree in the garden and she hops in the grass. She eats worms, nuts, and berries. Leo is black and white. He is very fast and very clever. He’s brave, too. He climbs trees in the garden and he hunts for mice … and birds! Leo sometimes tries to catch Lily, but Lily always escapes. Leo can run fast, but Lily can fly. This makes Leo angry!

One day, Leo sees Lily in the garden. Leo wants to catch Lily. He creeps through the garden very slowly and quietly. But Lily sees Leo and she flies away into the forest. Leo chases Lily. Lily flies and flies and Leo runs and runs. Soon they are a long way from the garden and they don’t know the way home. It’s dark in the forest. Leo and Lily are scared.
Leo and Lily hear a noise. It’s a fox! The fox is hungry. It wants some dinner. It wants to eat Leo! Leo tries to fight the fox, but the fox is very big.

Lily is in a tree. She pecks a pinecone. The pinecone falls and hits the fox on the head! Leo escapes and climbs up the tree. The fox is angry. It can’t climb trees.

Leo and Lily wait in the tree for a long time. At last, the fox goes away. Leo and Lily are safe, but they want to go home now. Lily flies up very high. She sees the garden! She squawks happily. Lily shows Leo the way home. But Lily is small and her wings are tired. She sits on Leo’s back and Leo carries Lily home.

Leo and Lily are safe at home in their garden again. They’re friends now. Lily flies around the garden and Leo never tries to catch her … Well, hardly ever!

In the winter, it’s sometimes cool and rainy. When it’s very cold, it snows. When there’s a lot of snow, children don’t go to school. They stay home and they’re happy. In winter, there’s often ice on the streets, and sometimes people slip and fall.

**Cause**

1. It’s very cold.
2. There’s a lot of snow.
3. Children stay home.
4. There’s often ice on the streets.

**Effect**

a. Sometimes people fall.
b. It snows.
c. Children don’t go to school.
d. They’re happy.

D Look at the pictures on pages 30–31. What do you think the text is about?
Everything in our world comes in three different states: **solid**, **liquid**, or **gas**.

**Solids**
We can see and feel solids. Some solids are hard, and some solids are soft. Trees and feathers are solids. You’re a solid, too!

**Liquids**
A liquid is a thing that can flow. Some liquids are thick, and some liquids are thin. Juice and milkshakes are liquids. Can you think of other kinds of liquid?

**Gases**
The air that you breathe is a gas. We can’t usually see a gas but sometimes we can feel it when it moves. On a windy day, we can feel the wind on our bodies.
Things can change from one state to another when we make them **hot** or **cold**.

- **When we make water very cold**, it **freezes** and changes to **ice**.
- **When ice or snow heats up**, it **melts** and changes back to **water**.
- **When we heat water**, it **boils** and changes to **steam**.

Look at these three pictures of things changing from one state to another.

- The snow was a **solid** and now it’s a **liquid**.
  - **Think** What’s the cause of the snow melting? What’s the effect?

- The water was a **liquid** and now it’s a **solid**.
  - **Think** What’s the cause of the water freezing? What’s the effect?

- The water was a **liquid** and now it’s a **gas**.

F Learn Contractions

Remember, contractions are two words joined together. We make contractions by taking away a letter and adding an apostrophe (').

is + not = isn’t
are + not = aren’t
was + not = wasn’t
were + not = weren’t

Read the sentence. Write the contraction.

1. The ice pops weren’t in the freezer. (were not)

2. We can send these to our friends.
3. We listen to this to hear songs or news.
4. This is something you do if you like to go to new places.
5. E-mail and text messages are examples of this.
6. This is something we use a lot to find information.
7. We can turn on the TV or listen to the radio to hear this.
Before You Read

Think How do you get to school? Can your grandparents use the Internet?

Learn Main Idea and Details

The main idea is what a text is about. There is one main idea. Other sentences in the text tell us more about the main idea. These are called details.

My neighborhood was very different long ago. There was a big farm, and it was quiet and safe. There weren’t a lot of buildings or people. It’s different now.

Write the main idea and details.

Ali was different a long time ago. He was a naughty little boy. Now he’s a good student. He was always late for school. Now he’s always early.

Look at the title on page 50. What do you think the text is about.
Today, communication and travel are fast, and it’s easy to get news. But a long time ago, things were very different.

**Communication**

Long ago, people used letters to communicate. They mailed letters to friends and families. Letters were carried by horse and cart, and later by train or boat. Today, communication is different and letters are carried by airplane. We can use e-mail, text messages, or phone calls to communicate quickly with friends and family all over the world.

**Think**

Find one detail of the main idea.

My great-grandma mailed a letter to her friend in London. It took two months to get there.

I send e-mails to my friend in London. She can read them right away.
News

Before newspapers, people talked to each other to get news. Then people printed the news on paper and newspapers started. Later they listened to the radio for news. Today we can get news any time we want.

Travel

People long ago walked from place to place or traveled by horse and cart. When they traveled long distances they went by train or ship. It was slow and difficult. Today we can travel in cars, fast trains, buses, or airplanes to go to places that are far way. We can travel to places across the ocean or across the world in a day. Travel is fast and easy now.

Learn Sequence of Events
Sequence is the order of things, such as 1, 2, 3, 4 or a, b, c, d.
Stories often have a sequence.
Events in a story happen in an order:

1 Grace mailed a letter from Paris to her cousin in London.
2 The letter arrived in ten days.
3 Her cousin was happy to get the letter.

Put the events in the correct order. Write the numbers.

☐ Lucia was sad to say goodbye.

☐ Lucia lived in a village long ago.
☐ She and her aunt visited many fun places.
☐ She arrived in two days.

D Long ago, a boy and his family traveled to the United States from far away. How do you think they traveled?

Tell Me a Story, Grandpa

This story is historical fiction. Historical fiction is a story about something that happened long ago.
“Tell me a story Grandpa!”

“Okay,” says Grandpa. “I’ll tell you a story about my grandfather, Carlo. In 1910, Carlo was ten years old. He and his family lived in Italy. They were very poor, so they came to the United States for a better life. This was the first time that Carlo traveled to a place far away.”

“Really? I’m ten, too,” says Henry, “And Mom, Dad, and I visit a different country every summer!”

“Yes, Henry. Things are different now,” says Grandpa.

“How did they travel here?” asks Henry.

“They traveled by ship,” says Grandpa. “It wasn’t an easy trip because the ship was crowded and dirty. There wasn’t much food and many people got sick. Carlo was sick too. They arrived at Ellis Island in New York after ten days.”

“Wow! That’s slow!” says Henry. “Now it only takes about nine hours in an airplane.”

“I know,” says Grandpa. “It’s very different today.”
“What happened at Ellis Island?” asks Henry.

“Doctors checked everyone, and Carlo was very scared,” says Grandpa.

“Why was he scared, Grandpa? Doctors help people,” says Henry.

“Yes. But people who weren’t healthy couldn’t enter New York,” says Grandpa. “The clerks asked them many questions.”

“What questions, Grandpa?” asks Henry.

“Where are you from? Are you healthy or are you sick?” says Grandpa. “Luckily, Carlo was feeling better so they let him in. And that’s why we live here today and not in Italy.”

“That was a cool story, Grandpa!” says Henry. “I have an idea. Let’s take a trip to Italy.”

“That’s a good idea, Henry,” says Grandpa. “Let’s go next summer.”

“Awesome, Grandpa! But let’s take an airplane, not a ship!”

Learn Reread
To reread means to read a text again. You can reread something for many different reasons, such as when you don’t understand something. When you reread, read slowly and think about what you’re reading.

Read the text once. Answer the questions.

We use math every day. People use addition and subtraction when they buy and sell things. Your parents use math when they buy food and clothes for you, so they know how much money they need. You use math to keep score when you play a game with your friends.

1. When do people use subtraction?
2. When do you use math?

Now reread the text. Answer the question.

1. Why do parents use math?

The text on pages 70–71 is about subtraction.
What are the three words you think are in the text?
When we add things, we join them together. When we subtract things, we take them away from other things. Then we can see how many things are left.

There are 3 apples left.

**Subtracting in Groups**

When we count backward, we’re subtracting 1 each time. Count backward from 50 to 1. Now count backward by fives, subtracting 5 each time. Now count backward by tens. How much are you subtracting each time now?

50 45 40 35 30 25 20 15 10 5 0

**Subtraction Math Problems**

All subtraction math problems have a minus sign.

This is the minus sign. The minus sign tells us to subtract 4 from 9.

We write $9 - 4 = 5$.

This is the answer. It tells how many are left.

We say “Nine minus four equals five.”
Subtraction Math Problems in Rows and Columns

We usually write subtraction math problems for **single-digit numbers** in a row and we usually write subtraction problems for **double-digit numbers** in a column.

**Think**
Reread this part.

E Look at the pictures on pages 78–79. What places do you think are in the story?
A monkey called Bandar lived in the woods near a small town. One day, Bandar was bored and decided to go into the town.

Bandar went to a bakery and saw thirty beautiful cookies. He stole a cookie and ate it. It was good! He ate more and more cookies!

The baker saw Bandar and chased him. "You greedy little monkey!" he cried. "Now there are only fifteen cookies!"

Bandar ran up a tree and hid in the leaves. When he looked down, he saw sixty small carrots in a garden. When the gardener wasn’t looking, Bandar ran down the tree, dug up a carrot, and ate it. It was good! He ate more and more carrots!

The gardener saw Bandar and chased him. "You greedy little monkey! Now there are only forty-four carrots!"

Bandar went to a restaurant and saw forty-two sausages. He stole a sausage and ate it. It was good! He ate more and more sausages!
The cook saw Bandar and chased him. “You greedy little monkey! Now there are only thirty sausages!”

Bandar stole food all over the town. Everyone was angry. They tried to catch Bandar, but he was too fast. Then the candy maker had an idea.

The next day, Bandar went to the candy store. He saw two big jars of candy in every color, and it all looked good! Bandar put his hands in the jars and grabbed twenty pieces of candy. But he couldn’t get the candy out of the jars.

The candy maker ran in. “You greedy little monkey! Let go of the candy and you can run away!”

Did Bandar let go of the candy? No, he didn’t, and the candy maker caught him. He took him back to the woods and told him never to come to town again.

There were twenty-four cookies. Gus ate ten. How many cookies were left?

Where are all the cookies?

Gus ate them! Greedy Gus.

I’m full!

Ms. Smart took a picture of the class. They were tired, hungry, and thirsty, but they were happy.

Before You Read

Think What things can you do at home? What things can't you do at school?

Learn Categorize

When we categorize, we put things that are similar into groups. After you read, think of the things you read about. How are they similar? Can they be put in one group? This helps you to remember them later.

Pasta, vegetables, and salad are in the food group.
Jackets, shorts, and T-shirts are in the clothes group.

Read the text. Complete the chart.

A reserve worker talks to some children. “Those are orangutans. They’re mammals, and their bodies are covered in hair. They have two arms and two legs.”

“Those orange-and-red tree frogs are amphibians and live in trees. They have wet skin on their bodies. They have long legs so they can jump high.”

Look at the title and pictures on pages 90–91. What do you think the text is about?
We follow rules every day. There are rules for things we do at home, at school, and in a lot of other places.

Think about rules at home. Parents usually make these rules, and they make sure we follow them. Parents can ask us to wash our hands and clean up. They make other rules about eating unhealthy food, watching TV, or bedtime. What rules do you follow at home?

There are rules at school, too. Teachers and the principal make the school rules. We should always be polite and take turns when we play games. Librarians help us follow the rules in the school library. We can’t eat, drink, or be noisy there. Outside school, the crossing guard helps us cross the road safely, and we should pay attention to the traffic light. These rules help keep us happy and safe. Can you think of more rules at school? 😊
Zoos and other fun places have rules, too. At the zoo, you can’t touch or feed the animals. You should never throw things at the animals.

Swimming pools are fun places, too. These rules help make it safe for everyone there. You shouldn’t run near the water and you can’t eat, drink, or litter near the pool. You must always listen to the lifeguards because lifeguards make sure we follow the rules and that we are safe in and near the water.

Rules tell us what we should and shouldn’t do, and they help keep us safe, happy, and healthy. What rules do you think are important?
Comprehension

1 Rules at home  
2 Rules at school  
3 Rules at fun places  

A Ask and answer the question.  

What’s your favorite part? 
Rules at the zoo help to keep animals safe. That’s good!

Before You Read

Think

How are you a good friend? How can you be nice to people?

Learn Theme

The theme of a story is the most important thing the writer wants you to understand. The writer is often showing something important.

Matthew and Dylan are different. Matthew likes math, art, and quiet places, but Dylan doesn’t like them. Matthew can sing and dance but Dylan can’t. They like each other and e-mail each other every day.

**Theme:** People who are very different can be friends.

Read the story. Circle the correct theme.

Mouse, Rabbit, and Opossum are hungry. They want dinner but their food is boring because they eat the same food every day. Mouse eats fruit, Opossum eats vegetables, and Rabbit eats carrots. They have an idea. They take their food to Mouse’s house. They now have three different foods for dinner. They’re happy!

1. It’s good to share things.
2. We should eat the same food every day.

Look at the pictures on pages 98–99. What animal is rude?
Welcome, Ricky Raccoon

When Ricky Raccoon comes over to play,
He helps put all of the toys away.
He asks his friend what he’d like to do
And is always careful with scissors and glue.
He washes before he comes to the table
And helps his host whenever he’s able.
That’s why almost every day
Someone invites Ricky over to play.

Think

What is the theme of this poem?

Don’t be Grabby, Gorilla

Gorillas are rude.
They grab their food.
They never say,
“Please pass the peach.”
They’re so anxious,
They just reach.
They upset others
By all they do.
And sometimes ... they upset
The table, too.

Think

What is the theme of this poem?
The Ox Always Knocks

The ox
Always knocks
Before
Opening a door.

Because
Someone behind it
Might be sleeping.
Or wrapping a present,
Or sad or weeping.

Then he always asks,
“May I come in?”
And everyone says,
“How thoughtful of him!”

Think
What is the theme of this poem?

Bears Always Share

Bears share their toys.
Bears share their honey.
Bears share a joke
They think is funny.

Whatever they do,
Whatever they wear,
They always share it with

Learn  Main Idea and Details

Remember, the main idea is what a text is about. The main idea is often the first sentence in a text. Details tell us more about the main idea.

Read the text. Answer the questions.

Rules in parks help to keep them clean and the animals safe. Some rules are:

• Don’t litter.
• Don’t walk on the flowers.
• Clean up after eating.
• Don’t give food to the birds or squirrels.

These rules keep everyone in the park safe and happy.

1 What is the main idea?

2 What are two details of the main idea?

D Look at the pictures and captions on pages 110–111. What do you think the text is about?
The Earth gives us special and important things that we need to help us live. We call these things natural resources. Air, sunlight, water, wood, and land are all natural resources.

People Need Natural Resources

Living things need clean air to breathe and clean water to drink. Plants need sunlight and land to grow, and we need plants for food. When plants breathe, they clean the air around them. We use the wood from plants and trees to make a lot of things, like paper, some houses, and furniture.

Hurting Our Natural Resources

We shouldn’t hurt our natural resources because we can’t usually make more of them. Smoke from cars and factories makes the air dirty. If the air is dirty, people can get sick and plants can’t grow. If we cut down trees, we should plant new ones.

Trash is very bad for our natural resources. Sometimes people throw trash into water but we can’t drink dirty water, and plants can’t grow near it.

Trash goes to places called landfills, and it stays there forever. Some landfills are dirty and they smell bad. People can’t use that land, and farmers can’t grow food on it.
Taking Care of Our Natural Resources

We can all take care of the Earth’s resources. Here are some ideas:

- Use things until you can’t use them anymore.
- Don’t throw things away. **Reuse** them. Refill plastic drink bottles. Make toys from old things.
- **Reduce** the natural resources you use. Take your own bag to the store.

What can you do today to help take care of our natural resources?
Comprehension

1. Different natural resources
2. Why we need natural resources
3. How we hurt natural resources
4. How we can take care of natural resources

A. Ask and answer the question.

What’s your favorite part?

How I can reuse things. I can help the Earth.

The tree is in front of the trash can.

A Grade 2 class brings newspapers, bottles, and cans to the classroom to recycle.
Setting: School

Read the story. Circle the correct setting.

Antonio and his dad are in a beautiful place. They’re looking at some trees and birds.
Antonio’s dad says, “People cut down too many trees and don’t plant new ones. Then there aren’t enough trees for animals to make homes in. We need to take care of Earth’s resources.”

Setting: Rainforest / Beach

The story on pages 118–119 is about a juice carton that gets recycled. What do you think it gets recycled into?
A Juice Carton’s Diary

January 15
Dear Diary,
I’m sitting on a shelf in a big store! I can see many wonderful things. The little carton in front of me has a picture of an orange on it. I think I know what I am. I’m an orange juice carton! I’m made of hard paper.

January 16
Dear Diary,
This morning something great happened. A little girl looked at my shelf for a long time, and then she chose me! She’s taking me to a picnic by the lake so I hope she’s very thirsty.

January 17
Dear Diary,
I’m in a lake! The little girl drank the juice, but she left me in front of the lake. The wind blew me into the water. I don’t like it here. There was a trash can behind the tree. Why didn’t the little girl put me in it?

Think
Where is the juice carton?
January 18

Dear Diary,

I saw a man taking litter out of the lake with a net. He saw my bright orange carton, and he rescued me! He caught me and a plastic bottle in his net. Now we’re in the boat, and we aren’t trash anymore! We’re happy.

January 19

Dear Diary,

I’m at the recycling plant! It’s a little scary here because there are large machines that make loud noises. Where’s my plastic bottle friend? He’s across from me. He’s in a bin with other plastic bottles. I think this is a good place.

Think

Where is the juice carton?

January 20

Dear Diary,

I’m sitting on a shelf in a stationery store! Everything here is made of paper! Yes, they recycled me into a notebook! I’m very happy and excited, and I really want to see the recycling plant again. Maybe next time I’ll be a comic book!

2. The man on the lake
3. The carton in the recycling plant
4. The carton is now a notebook.

Ask and answer the question.

What’s your favorite part?

The carton was recycled into a notebook. That’s interesting.

Answer the questions.

1. How many settings are in the story? ______________
2. Name each setting: ____________________________________________

Number the events in the correct order.

☐ The girl took the juice carton to a lake.
☐ The juice carton felt a little scared.
1. The juice carton sat on a shelf in the store.
☐ The juice carton was recycled into a notebook.

I learned that sunlight helps the plants grow.

My Tree Collage

Trees are an important natural resource.

We use trees to make paper, chairs, and some houses. We get fruit from trees and animals make homes in trees.

We should take care of them and plant new ones when we use them.

How Music Makes Us Feel

In this text we learn about music and how it makes us feel.

This text is an informational text. Remember, informational texts tell us about our world.

Children all over the world play musical instruments. They can have a lot of different feelings when they play. In the beginning, a lot of them feel excited. But then they need to practice every day, and sometimes they think music is boring.

Summary: Children can have a lot of different feelings when they play musical instruments.

Read the text. Then circle the correct summary.

There are a lot of different instruments in a band in a parade. The drums, cymbals, and trumpets can be loud. Some children feel excited when they hear loud music, but some children feel scared.

Summary:
1. Some children feel excited when they hear loud music in a parade. Some feel scared.
2. People at parades all feel excited, scared, and happy.

The text on pages 130–131 is about music and feelings. What are three words you think are in the text?
People all around the world enjoy music. Some music is fast, and some music is slow. Some music is high, and some music is low. Listen to this piano music. What can you say about it? Is it fast or slow, high or low?

**Music and Feelings**

When we listen to music, we feel different things. Slow music can make us feel sleepy, and fast music can make us feel excited. The same music can make one person feel sad and another person feel happy. There are no right or wrong feelings about music.

Listen to this flute music. How does it make you feel? Mothers play this music for their babies at night because it helps the babies sleep. Now listen to this trumpet music. How does it make you feel?

**Think**

What are the most important parts so far?
Music and Imagination

Music can help us imagine things, like animals. When the music is fast, we can imagine an animal running. When it’s slow, we can imagine an animal sleeping. When it’s low and slow, we can imagine an animal that is in danger.

Listen. What animal does this sound like, a duck or a wolf? What do you imagine the animals are doing?

Listen to this music. What did you hear, thunder or rain? Now listen again. What did you hear this time?

Next time you listen to music, draw a picture of what you imagine. Look at it a week later. Does it help you to remember the music?

Think

What are the most important parts so far?

A Ask and answer the question.

What’s your favorite part?
The music. I could imagine the animals.

B Circle the correct answer.

1. All music sounds the same. False
2. People have the same feelings when they listen to music. True False
3. Music helps us imagine a lot of different things. True False
4. The music about bees was fast. True False

C Think of the most important parts of the text. Summarize the text.

Music makes people feel ...

Think What do you think?

1. How does music make us have different feelings?
2. We want to feel happy. What kind of music should we listen to?
**Grammar in Use**

**D** Listen and sing along.

In the morning when Gus gets ready for school,
He likes fast music ... it’s so cool!
He likes guitars and drums the best,
While he brushes his teeth and gets dressed!

On Monday he goes to school with friends.
In music class, he plays instruments.
The high flute notes sound like birds in a tree,
The low trombone, like whales in the sea!

He doesn’t listen to loud music at night.
He listens to music that’s soft and light,
Like the violin, when he rests his head,
Closes his eyes and goes to bed.

Learn Characters
All stories have characters. Characters are the people, animals, or things that are in the story. There are main characters and secondary characters.

Main characters are the most important characters. The story is about them.

Secondary characters aren’t as important as the main characters.

Laura and her baby sister, Clara, are listening to some soft and slow music. Laura loves the low notes. She feels calm. Clara falls asleep.

Main character: Laura  Secondary character: Clara

Read the story. Write the names of the characters.

Sammy plays the trumpet but he doesn’t like to practice. He plays a piece of music for his teacher, Mr. Green. The music is loud and awful. His teacher is unhappy. Sammy practices every day now.

1 Main character: _______________________
2 Secondary character: _______________________

D The title of the story is “Olga’s Flute.” How do you think Olga feels when she plays her instrument?
Olga’s Flute

When Olga plays her flute she feels many things. High and slow notes make her feel happy and the low long notes can make her feel sleepy. When Olga plays a fast tune, she feels like she is flying.

Olga’s school is having a big concert tonight. Olga plays second flute, so if the first flute player gets sick, Olga can play his or her part.

Think

Which character is in this part of the story?

Today Olga goes to school early for extra practice. Her music teacher is waiting for her.

“Alonso has the flu,” Mr. Perez tells Olga. “You must play his part tonight.”

Olga is very worried. “Alonso is the best flute player in the school,” she says. “I’m not good enough.”

Mr. Perez smiles. “You practice every day, Olga,” he tells her. “Alonso plays well, but so do you. Please try, Olga.”

Think

Which character is in this part of the story?
Mr. Perez smiles. “Olga, I recorded you just now. That’s you playing!”

Olga is amazed. “Do I really sound like that?” she asks.

Mr. Perez laughs. “You should listen when you play.”

“I do listen, but I’m often too nervous!” Olga says.

“Don’t worry tonight,” Mr. Perez tells her. “You work hard and you play well, but never forget to have fun and enjoy the music. You’re a great musician!”

She closes her eyes and begins to play, but this morning she feels nervous. The high notes are hard to reach and the fast notes are difficult to play. The quiet part seems too loud. When Olga finishes, her eyes fill with tears.

“I wish I could play like Alonso,” she says.

Mr. Perez pushes a button on his computer and Olga hears music. She thinks it is Alonso’s flute solo. She imagines butterflies on the high notes. The fast notes sound like hummingbirds or rain. The low, quiet notes are like snow falling.

“That’s beautiful. I wish I played liked that!” Olga says.

Learn Cause and Effect

Remember, a cause is why something happens.
The effect is what happens after the cause.

Read the text. Write the causes and effects.

Chicks can’t fly when they are very small, so parent birds get food for them. Chicks move their wings in the nest. Their wings get strong and when they get big, they leave the nest. They move their wings up and down and fly in the air.

Look at the title and headings on pages 150–151. What do you think the text is about?
We see things move every day. We see people walking, birds flying, and leaves falling to the ground on a windy day. Things move in many ways. They move up and down, right and left, and over and under things. Look around your classroom. What things are moving?

**Force**

A force makes something move. A **push** is a force, and it moves something away from you. We push people on swings. A **pull** is a force, too, and it moves something toward you. We pull things in wagons. Can you name something you push and something you pull?

**Think**

What’s the cause of the wagon moving? What’s the effect of the girl pulling the wagon?

**MOVEMENT**

A small force causes a small movement and a big force causes a big movement. When we use a small force to **throw** a ball, it doesn’t go far. When we use a big force to throw the same ball, it goes a long way.

It is easier to move a light thing than a heavy thing. We can move a toy car with a small force because it’s light. We need a big force to move a real car because it’s heavy.
Speed

Speed is how fast things move. Some things, like a train, move fast and some things, like a tortoise, move slowly. Can you name some things that move fast?

A force can change the speed of things. When you push a door with a small force, it opens slowly, but when you push a door with a big force, it opens quickly.

Think

What’s the cause of the door opening slowly? What’s the effect of the door being pushed with a small force?

The next time you see something moving, ask yourself, “What force is moving it, a push or a pull? Is the force small or big?”
Think

1. How force makes things move
2. Big and small forces cause different movements.
3. How force changes speed

Ask and answer the question.

What’s your favorite part?

Heavy things need a big force to move them.
I didn’t know that.

1. A force doesn’t make things move. True False
2. Push and pull are forces. True False
3. A light object needs a big force to move it. True False
4. A force can change the speed of things. True False

Think
What do you think?

1. What is heavy and needs a big force to move it?
2. Is it easier to push your father or your friend on a swing? Why?
Listen and sing along. **The Horse, the Tortoise, and Me**

So what is slower than me?

A horse is bigger than a tortoise,  
And a horse is bigger than me.  
I’m smaller than a horse,

A horse is heavier than a tortoise,  
And a horse is heavier than me.

Learn Theme
Remember, the theme of a story is the most important thing the writer wants you to understand. The writer is often teaching something important.

Read the story. Then circle the theme.

It’s a cold and rainy day and Josh can’t play outside. His mom sees his sad face and says, “Let’s make some fun things.” They make a toy car and Josh pushes and pulls the car on the table.

“This is fun,” he says. Then they make a toy boat. Josh pushes his boat across the water in the kitchen sink.

“This is fun, too,” he says. “Thanks for a great day, Mom.”

a  You can’t play outside when it’s rainy.
b  It’s good to play inside with your mom.
c  It’s good to think of things to do inside when it’s rainy.

d  The story on pages 158–159 is about two stubborn goats who don’t get along. What do you think they fight about? Give one idea.
A long time ago, a family of goats lived on East Mountain. Two of the brothers, Black Goat and Brown Goat, always fought about who was the best in the family. They were very stubborn: they never said “sorry” or “I’m wrong.”

One day, they were on a small patch of the greenest grass on East Mountain. It was only enough for one goat. Brown Goat said, “I’m the oldest brother in the family, so I should eat the grass.”

Black Goat said, “I’m the smartest brother in the family, so I should eat the grass.”

They pushed each other with their horns. They pushed with the same force, so they didn’t move forward or backward. They pushed for a long time and then they both got tired and fell down. Black Goat was angry so he moved to West Mountain.
There was a very narrow bridge between East Mountain and West Mountain. Every day Brown Goat crossed it to drink from the coldest water in the pond on West Mountain. Every day Black Goat crossed it to eat the juiciest grass on East Mountain. Brown Goat always crossed early, and Black Goat always crossed late.

One day, Brown Goat got up late so both goats were on the bridge at the same time. Brown Goat said, “Go back! I’m the oldest so I should cross first.” Black Goat said, “You go back! I’m the smartest so I should cross first.”

They pushed each other with their horns. They pushed with the same force so they didn’t move forward or backward.

They pushed for a long time and then they both got tired and fell into the river below the bridge.

The goats swam to the riverbank. Then they slowly walked home to their mountains. They were angry, tired, wet, cold, and hungry. And that’s what happens to stubborn little goats.

Text-to-Self Connection

When we read something, we can think about things in our lives that are similar to things in the text.

The story of two stubborn goats.
I am stubborn, too.

The text about rules.
My mom makes the rules at home.

Read the text. Think.

There’s an interesting art park in New York. It only has sculptures. In good weather a lot of people come to the park. They enjoy the art and sometimes they have picnics.

1. There’s an interesting art park in New York. Think about what’s in your city.
2. In good weather a lot of people come to the park. Think about what you do in good weather.
3. People enjoy the art. Think about what you enjoy.

D The text on pages 170–171 is about shapes. What shapes do you think are in the text? Think of five shapes.

Shapes in Art

In this text we learn about shapes in art.
This text is an informational text. Remember, informational texts tell us about our world.
We can see shapes in people, animals, nature, art, and much more in our world. They are all around us.

Kinds of Shapes

Squares and rectangles have four straight sides and four corners. How are squares and rectangles different?

A square has four corners and all four sides are the same length.

A rectangle also has four corners but two sides are longer than the other two.

Circles and ovals don’t have straight lines or corners. How are circles and ovals different?

All triangles have three straight lines and three corners.

Stars, crescents, and spirals are all very different kinds of shapes.

Stars have lots of sides.

Crescents have two sides, but they aren’t straight.

Spirals don’t have sides and they don’t have straight lines or corners.

What shapes do you see in this nature collage?

Think about things in nature that you see every day. What shapes are they?
Art Shapes

George W. Hart made this sculpture from wood. He uses math to help him make all his sculptures. What shapes can you see in this sculpture?

This picture is made from lots of circles and each circle has one color inside it. The artist, Ben Heine, used a computer to make this picture.

A famous painter called Piet Mondrian inspired people to use shapes and straight lines in their paintings. Some things today, like dresses, use his patterns and colors. How many different shapes can you see in the painting?

The next time you paint, draw, or make a piece of art, look for the shapes in your world to help you.

Think

Think about things that you know with a lot of different shapes.

Finn loves art. He goes to art class on Thursdays. Finn likes music, too, and he’s good at it. One day in art class, he made a musical instrument collage. It was beautiful. He took the bus home.

“Where’s your collage?” asked his mom.

“Oh, no!” he said. “I left it on the bus.” He was really sad.

1. Think about what you like.

2. Think about what you’re good at.

3. Think about things you forgot.

In the story a girl makes a lot of paper animals. What kinds of animals do you think she makes?
Maki woke up early. Her room was quiet. Everyone was sleeping, even her little sister Akiko in the bed next to hers. What could she do? I know, she thought. I can do origami! On the table was some colored paper.

Maki got out of bed quietly. The paper was shiny, and there were a lot of colors. Maki folded a red square, bending the paper in the middle and at the edges. She worked until it was done. Suddenly, it was a crane!

The crane looked lonely, so she made another—this time a blue one. Soon she had a whole row of origami cranes! “Would you like some friends?” Maki asked the cranes. “Oh, yes!” said the cranes. “You can speak?” Maki laughed. “Of course. You’re in our origami world now!” So Maki picked up more paper.

She made an orange seal. Seals like to play, Maki knew, so she made him a purple ball. “Thanks,” said the seal. And he rolled the ball back to her. They played and played until Maki had another idea.

Think about animals that you like.
With blue paper, Maki made water, crumpling it to make waves. Maki dived into the water and swam happily with the cranes and seal. A green fish jumped through the air. But something was missing. Maki remembered her sister, Akiko. She missed her and wanted to see her.

Maki saw a sailboat. The boat came near, and Maki heard a voice. “All aboard!” the voice said. Maki looked up. It was her sister’s voice! Akiko was awake and looking for her in the origami world.

She climbed into the sailboat. “Hello, Akiko!,” she said. Her new friends looked at her from the water, smiling. In Maki’s hands was one last piece of paper. It was golden. Maki folded it, threw it high into the air, and made a big, round sun.

*The Candy maker puts two jars on the stage and leaves. Bandar enters.*

**Bandar:**  Candies, candies, I can see.  
Candies, candies, more than three.  
Candies, candies all for me.  

*Bandar puts his hands in the jars and grabs as much candy as he can. The Candy maker enters.*

**Candy maker:**  You greedy little monkey! Let go of the candies and you can run away!  

**Bandar** tries to get his hands full of candy out of the jars.  

**Bandar:**  No! No! I want the candies.  

**Candy maker:**  Silly, greedy monkey! I can catch you now!  

**Chorus:**  Bandar is greedy as can be. He doesn’t let go as you can see.  

**Narrator:**  The candy maker catches Bandar.  

**Candy maker:**  Back to the woods you go. And NEVER come back to town again, you silly, greedy little monkey.  

*The Candy maker and Bandar leave the stage.*

**Narrator:**  And Bandar the greedy monkey never went to that town again.  

**Everyone enters.**  

**Narrator:**  The lesson of this story is ...  

**Everyone:**  It’s not good to be greedy. It’s not good to steal.
Two Stubborn Little Goats

Characters (21 total): Mother Goat, Father Goat, White Goat, Black Goat, Brown Goat, Narrators: Up to 16
Props: cardboard goat masks, cardboard cutout for small patch of grass, cardboard cutout bridge, (cardboard cutout river), cardboard cutout for a pond, signs for East Mountain and West Mountain

Mother, Father, and White Goat enter from the right. Brown Goat and Black Goat enter from the left.

Narrator: A long time ago, a goat family lived on East Mountain. Two of the brothers, Black Goat and Brown Goat, always fought about who was the best in the family.

Narrator: They were very stubborn and they never said “sorry” or “I’m wrong.”

Chorus: Two very stubborn goats.
They fight all day long.
Black Goat’s always right.
Brown Goat’s never wrong.

Adult goats and White Goat move to the far right of the stage. Brown Goat and Black Goat move to the grass patch.

Narrator: One day, they were at a small patch of the greenest grass on East Mountain.

Narrator: Only one goat could eat at a time.

Brown Goat: I’m the oldest brother in the family so I should eat the grass!

Black Goat: I’m the smartest brother in the family so I should eat the grass!

Brown Goat and Black Goat push each other with their horns. They don’t move.

Narrator: They pushed each other with their horns. They pushed with the same force so they didn’t move forward or backward.

Narrator: They pushed for a long time and then they both got tired and fell down.

Black Goat and Brown Goat fall down.

Chorus: They pushed each other with their horns.
They pushed all day long.
Black Goat’s always right.
Brown Goat’s never wrong.

Black Goat gets up and crosses the bridge. He looks angrily at Brown Goat.

Narrator: Black Goat was angry so he moved to West Mountain.
Narrator: There was a very narrow bridge between East and West Mountain.

Brown Goat crosses the bridge, drinks from the pond, then returns.

Narrator: Every day Brown Goat crossed the bridge to drink from the coldest water in the pond on West Mountain.

Black Goat crosses the bridge, eats from the grass, then returns.

Narrator: Every day Black Goat crossed the bridge to eat the juiciest grass on East Mountain.

Narrator: Brown Goat always crossed early and Black Goat always crossed late.

Brown Goat and Black Goat both cross the bridge at the same time and meet each other in the middle.

Narrator: One day both goats were on the bridge at the same time. It was too narrow for both goats to cross.

Brown Goat: Go back! I’m the oldest so I should cross first.

Black Goat: You go back! I’m the smartest so I should cross first.

Brown Goat and Black Goat lock horns and push each other. They don’t move.

Narrator: They pushed each other with their horns. They pushed with the same force so they didn’t move forward or backward.

Black Goat and Brown Goat both fall off the bridge and into the river.

Narrator: They pushed for a long time. They both got tired and fell into the river below the bridge.

Black Goat and Brown Goat swim to opposite riverbanks. They start walking slowly in opposite directions, looking very angry.

Narrator: The goats swam to the riverbank. Then they slowly walked home to their mountains. They were angry, tired, wet, cold and hungry.

Adult Goats and White Goat Chorus:

They pushed each other with their horns
And fell into the river.
Cold, wet and very tired
Look at the brothers shiver!

Brown Goat and Black Goat leave the stage.

Narrator: They went home. And that is what happens to stubborn little goats.

Everyone enters.

Chorus: Don’t be stubborn like the goats
If you want to get along.
Don’t think you’re always right
And you’re never ever wrong!

Why should we take care of the Earth? How do we make art? What makes things move?

Oxford Discover uses Big Questions like these to tap into children's natural curiosity and enable them to ask their own questions, find their own answers, and explore the world around them.

This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps children achieve near-native fluency in English.

Oxford Discover gives teachers the tools to develop children’s 21st century skills, creating young thinkers with great futures.
